

ISC Parent Newsletter

WELCOME BACK TO THE NEW SCHOOL YEAR!

UPCOMING DATES

30 August - New Parent Coffee meeting

3 September - Kindertime starts again

5 September - Wai Kru Assembly

TREASURE MAPS

Mr Kameran is our newest teacher, moving to Thailand over the holiday break.

He and Khun Ae celebrated the first day of school by taking EY3 on a treasure hunt. The children drew their own maps and then went on the hunt for hidden treasure around the school!

Active learning is a big part of our curriculum and it was great to see students out of the classroom and learning.

Dear Parents/Guardians,

All of us here at ISC hope everyone has had an enjoyable break with lots of quality family time.

I have been so excited for the start of the new academic year and all that came to the fore once I had a chance to mingle with the children and hear how they shared my excitement. It is these wonderful young people that make my job so fulfilling and, with all the new ideas that we have been discussing with teachers, I cannot wait to help them to find their passion for learning once again.

I would like to take a few moments to welcome all our new staff and families to our ISC community and wish you all a great start to the new school year.

We are so glad to have all of you here!

Kind regards,

Graeme Simpson - Principal ISC

MATHS IDENTIFIERS IN Y4

The beginning of the school year is all about getting to know yourself and others and Mr Paul set the new Year 4 students a special Math challenge related to themselves.

The students had to create a poster about themselves using their prior knowledge of a variety of sums, which students going passed the Year 4 room can try to work out to identify whose poster is whose. Why not check them out!

CRAZY Y3 PE

Mr Joe always knows how to 'crab' students attention and he ran Year 3 through their paces in their first PE lesson of the year, testing their agility and endurance using the animal kingdom as inspiration for all the activities before a super game of dodgeball with special contestant, Ms Kelly.

Y2 AVENGERS

Avengers: Endgame might have been the event movie of the year, but the first day back at ISC saw our very own superheroes in Year 2 assemble.

Why design a superhero on paper when you can create the first part of their very own superhero outfit?!

NEW START IN Y5&6

Ms Laxmi helped Year 5 & 6 to see just how much they have in common with a great ice-breaker activity.

The students made a statement and if someone shared it then they took the string and carried on. From the picture, it looks like this class have already connected well!
